

## *Quality Living Through Compassionate Care*

Collinwood is a beautiful 120-bed licensed facility with a warm and caring atmosphere. Collinwood offers physical, occupational, speech, and respiratory therapies with a full restorative program. We have a very knowledgeable staff that provides the highest quality healthcare for our seniors. Our activities program offers a wide variety of events and stimulation to aid in the growth and development of our residents. We have a hairdresser at no additional cost, not to mention the absolute best food for our residents.

### ACTIVITIES

Our Activities Program is one of Plano's finest. We strive to be creative in the types of activities that are offered to our residents and guests. We believe that socialization plays a vital role in the lives of our long-term care residents. Although we provide a wide variety of traditional activities, we also reach out to every individual resident to find out what activities they like to participate in and develop a plan that increases the quality of life of that resident.
